

# FINE FINGER SIZER

To get the best results, you will need to go into the 'printing option' before printing and ensure that the 'page scaling' option is set to 'none' in the print dialogue box. The **FINE** Finger Sizer must be printed on a full letter (8 1/2 x 11 inches) size page.

To check that the Finger Sizer has been printed properly, take a ruler and measure the sample below. It should measure exactly 2 cm.

## How to use the FINE Finger Sizer:

- **Cut out** the paper Finger Sizer and follow the instructions below.

- Make sure that the numbers are on the outside of the Paper Finger Sizer and insert the pointed end through the opening you have cut at the other end of the finger sizer where indicated [cut here]. Place your finger through it and pull the pointed end until it fits comfortably on your finger.
- The number that lines up with the edges of the opening is the 'interior circumference'. You should note this number and then refer to the **FINE** Sizing Chart to choose the size of the ring.

Please note that the **FINE** Finger Sizer is an indicative guide only and therefore may not be an exact measure.
